SUMMARY

Full stack web developer with a BS in Applied Physics from the University of Washington and a certificate in full stack web development from the University of Washington Coding Bootcamp, with experience in JavaScript, Java, and React.js. Recently worked in a group of four to create an application to help tabletop role-playing-game players currently working with pen & paper to move to a digital means of storing and calculating information. Motivated and excited to create applications with strong functionality and robust code.

TECHNICAL SKILLS

Languages: JavaScript ES6+, SQL, HTML5, CSS3, NoSQL, Java
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node, Handlebars, Bootstrap, Material
